(The Monroe Institute Bulletin, Summer 1988)

GO KUDOS TO OUR TRAINER OF THE QUARTER

Franceen King

The TMI BULLETIN is privileged to honor Franceen King as GO Trainer of the Quarter. Franceen has been active in *Gateway Outreach* since January of 1986 and has made many valuable contributions to the GO program in several capacities.

She is the Director of The Self-Awareness Institute in Lutz, Florida, through which she offers the GO Excursion Workshops, Explorer Meetings, and will soon be presenting H-PLUS®-GO, a 2-day HUMAN-PLUS workshop developed for *Gateway Outreach*. Franceen is intimately involved in the evolution of *Gateway Outreach* as a trainer of trainers; she has co-presented several GO Trainer Seminars at the Institute and is currently involved with the design and implementation of the H-PLUS-GO Workshop. Her relationship with TMI extends to her participation as a trainer for the Gateway Voyage® and H-PLUS Intensives held here in Virginia.

Franceen received her MA in Psychology from Hood College in Frederick, Maryland and is a Licensed Mental Health Counselor providing group and individual therapy and Rebirthing. She makes frequent public appearances as an authority in the field of human wellness and self development.

Her expertise also includes Employment Development Specialist, Executive Development Consultant, organizational development, crisis counseling and human resources development.

Franceen's promotion, presentation, and community education as a GO Trainer have made a tremendous impact on the awareness of Hemi-Sync® in central Florida. Franceen's commitment to the spiritual self- reliance of her clients and to the value of Hemi-Sync as a tool in that process make her an outstanding GO Trainer. Thank you, Franceen, for strengthening and supporting Gateway Outreach. We congratulate you!

Hemi-Sync® is a registered trademark of Interstate Industries, Inc.
